

The background of the entire slide is a photograph of a person with blonde hair tied back, wearing a bright blue hooded jacket and black pants. They are standing in a desert landscape, surrounded by numerous Joshua trees. The scene is captured during sunset or sunrise, with a warm, golden light illuminating the trees and the person's jacket. In the distance, there are low mountains under a hazy sky. The overall mood is serene and adventurous.

STORMTECH®

nurtured by nature

Company Introduction

COMPANY INTRODUCTION

Born in the rugged west coast rainforests of British Columbia, Canada, Stormtech's designs are inspired through the lessons learned from the rain, snow, and sun. We pay painstaking attention to mother nature's varying moods in order to develop the very best in technical outerwear. With design excellence and functionality that blends exclusive technologies, such as H2XTREME®, we build hard-wearing garments that provide maximum protection and comfort so you can get out there and explore with confidence.

BRAND POSITIONING

NURTURED BY NATURE

For those who seek nature for clarity and rejuvenation, we offer quality apparel for personal escapes. Stormtech is thoughtfully designed to provide comfort and performance in every environment.

STORMTECH BRAND AMBASSADORS

To ensure our gear is ready for any adventure, the most crucial development step involves testing both in our laboratories and in everyday applications. Our testing team often recommends an innovation that's outside the bounds of existing technology. The Stormtech Research, Design and Development team accepts their challenges and turns to the laboratory for new fabrics and components. Our teams of designers and fabric technicians must turn those revolutionary raw materials into gear that maximizes an athlete's ability to survive and succeed in the most severe weather conditions.

RESEARCH & DESIGN, TEST & TEST AGAIN

Athletes and adventurers who constantly pursue their own limits help us push the limits of apparel and equipment design and technology. The Stormtech Product Testing Team gives us constant feedback on the clothing and equipment they depend on for success and survival in their adventures. We hear from our athletes through gear evaluations and regular athlete input sessions.

INNOVATIVE DESIGN & CONSTRUCTION

Exploring the frontiers of technology for better fabrics and components is only the beginning of the life cycle of a new piece of gear.

LABORATORY TESTED & EXPEDITION PROVEN

In addition to subjecting our products to a tortuous battery of laboratory tests, we send our apparel and equipment on extended expeditions to learn how new products perform under the true test of the great outdoors. After receiving feedback, we refine each product until it receives approval from our world-class testing team.

Wayhu Mahendra

Bali, Indonesia
@baliphotographytour

When I travel through nature, it feels calm, peaceful, and quiet; a place I can forget about all my problems. Even though outdoor activities are always a challenge, the feeling of exhaustion disappears when I reach my destination and capture it through photos.

Tyler McKay

Toronto, Canada
@tylersjourney

If taking a photo will make you happy, don't let what others are doing hold you back from shooting iconic locations. Weather changes, subject matter changes, and your creativity will stand out. Do your best to put your spin on this crazy world. For me it is the weather; I intentionally search for the moodiest weather and new subject matter within a frame to compel my viewers.

Kevin Hense

Seattle, Washington, USA
@shreddin_kevin

Kevin is a freelance photographer passionate about landscapes. Being outside and having an adventure are the primary motivations he builds his photography on. His art is a reflection of Pacific Northwest life and his overall appreciation for the natural environment.

Julia Kivelä

Helsinki, Finland
@julia_kivela / @kivelajulia

In 2011, Julia moved to Finland from St Petersburg, Russia, after falling in love with her husband, who she met in the fall of 2010 in Helsinki, Finland. Julia has always been interested in photography. When she moved to Finland she didn't take much with her, but one thing she took was her camera. While living in Finland Julia fell in love with Finnish nature and became a self-taught professional photographer who takes her inspiration and love for photography straight from nature. Her popularity has skyrocketed on Instagram where she currently has more than 55,000 followers. Julia's work has also won photo competitions, including one organized by National Geographic Russia.

Dickson "The Royal Son"

Singapore
@the_royal_son

Nature is wild, you've got to be prepared for anything. That's why I choose Stormtech. Its range of high-performance gear will keep you prepared for anything nature throws.

Giulia Woergartner

Dolomites, Italy
@Woergartner

Giulia Woergartner is a travel and commercial photographer, based in northern Italy. Growing up in the heart of the Italian Alps, Giulia was surrounded by beauty, which helped shape her love for natural beauty and photography. The Dolomites were the earliest subjects of her pictures, an opportunity many photographers only dream of.

With her yellow jacket and a camera in her hand, she is always chasing the adventure and exploring beautiful corners of this world. Giulia is also very passionate about the environment and the protection and conservation of our planet.

Kelsey Johnson

San Francisco, USA
@heykelseyj

Based in San Francisco, Kelsey is a commercial travel and lifestyle photographer with a passion for capturing the feeling of adventure. A storyteller at heart, she specializes in photographing the interaction between people and the outdoors, often including herself or others within her work.

Her previous photographic exploits include: spelunking through underground rivers in New Zealand, hiking Norwegian cliffs at sunrise, backpacking to a hidden oasis in the Grand Canyon, living out of a camper van across the Southwest, and getting soaked under Icelandic waterfalls.

Liam Fisher

North Vancouver, Canada
@fitlikefisher

Not just another beard, Liam has a BSc (Hons) Double Major in Exercise Physiology & Medical Physiology or, his own words, "a BSc in pickin' it up and puttin' it down, in both health and in sickness". When he's not studying up on new training techniques, Liam can be found in the gym pumping iron; or shredding some gnar on his bike, his skis, or his paddle board.

Giulio Groebert

Karlsruhe, Germany
@giulioagroebert

Giulio hails from a small village in western Germany. With an inherent love of nature and peaceful places, his photography journey naturally transitioned from a hobby into a successful career as a freelance photographer and filmmaker. His passion for photography developed during a trip to Asia in 2016. Here he bought a cheap camera, taking pictures of everything that came across his lens. Unfortunately, he was dealt a blow when his SD card broke losing thousands of pictures of fascinating places like the Angkor Temple in Cambodia and Halong Bay in Vietnam.

Promark to STORMTECH,
"This is a business built totally
on relationships".

OVER 40 YEARS OF STORMTECH

In the late 70's, Blake Annable started importing sports equipment from Asia and selling them door-to-door at mom and pop sporting goods shops throughout Western Canada. Operating out of his classic Ford van for those many road trips across British Columbia and Alberta and distributing his wares from a dry cleaner's basement in North Vancouver, founder Blake Annable created Promark, a sports accessory company which would later evolve into STORMTECH.

STORMTECH ORIGINS SINCE 1977

1977

Promark is founded by Blake Annable in Western Canada as a distributor of sportswear & accessories to independent Canadian sporting goods retailers. The first warehouse was in the basement of a dry cleaning shop in North Vancouver.

1981

Promark had a full collection of sports and golf bags offered with screen printing for schools, institutions, and golf pro shops. The recession of 1981 and 1982 in North America decimated business and forced Blake to look outside the box for new opportunities. To cut costs and save the company, he saved rent by moving his living quarters into his North Vancouver warehouse.

1983

A break through year in sourcing promotional product for the beer and beverage industry, including a branded, insulated beer cooler bags – the first in the industry. These products were hugely popular with major Canadian breweries who had recently been prohibited by the government of the day from advertising in traditional media and needed to channel advertising dollars elsewhere.

1984

We expanded both the product and brand offerings to keep up with the growing demand for “beer gear” for Labatt, Molson, Coors and Budweiser.

1987

The company now had two separate product categories and brands – Promark for branded bags and promotional items, and STORMTECH for apparel.” In the coming years, Promark branded bags and accessories would all be rebranded with the STORMTECH trademark which would become the company’s international trademark.

2000-2007

STORMTECH expands its distribution channels by entering into a licensing agreement with Champion Athleticwear in Canada. This move provided access for both STORMTECH and Champion brands to enter major retail market in Canada and expand our product base to include athletic knitwear.

2016

The company is now distributed in over 50 countries worldwide with a network of 10,000+ distributors. International markets continue to grow with a bright future of growth and innovation leading the way.

2018

The company updates the STORMTECH brand architecture with a new icon and positioning statement “Nurtured by Nature” reflecting our commitment to building technical and sustainable best-in-class performance products.

1979

Developed a collection of gym bags in a range of team colors for both athletic and retail markets. It was a big success also with major department stores across Canada.

1985

The development of the first Promark branded jacket with “Storm-Tech” as the style name – a fleece liner jacket that could be zipped into a waterproof breathable shell.

1990

The drive to exceed customer expectations is what led STORMTECH to develop a range of waterproof breathable fabrics, under the H2XTREME® registered trademark.

1998

After 2 decades of growth and success in Canada, STORMTECH expands its operations to the US with a distribution center in St. Louis, Missouri.

2008-2015

STORMTECH expands its European sales office and showroom in London, England and expands its international distribution network to include Australia, New Zealand, Switzerland, Norway, Taiwan, China, Japan and South Korea.

PRODUCT QUALITY ASSURANCE

At Stormtech, we take pride in ensuring our products are tested and inspected at the highest level of performance.

Our products are tested through third party accredited testing laboratories according to the American Association of Textile Chemists and Colorists (AATCC), American Society for Testing and Materials (ASTM), and the American Apparel & Footwear Association (AAFA).

PRODUCT SAFETY

Stormtech promises to provide safe, quality products that meet customer health and safety expectations.

All Stormtech products imported into Canada, USA, Europe, and third party shipments follow strict adherence to product safety laws and regulations of the jurisdictions in which they are sold.

RESPONSIBLE SOURCING PRACTICES

Stormtech is firmly committed to selling products that are manufactured under legal, safe and fair working conditions in factories where employees are treated fairly.

Our Ethical Sourcing Policy is designed to ensure that our global sourcing supply chain operates in compliance to Stormtech's requirements and all applicable laws governing child labor, forced labor, wages, benefits, working hours, harassment, health and safety and factory security.

SUSTAINABLE PRODUCTION

As an outdoor clothing brand that believes we're at our best in nature, Stormtech is committed to sustainability and protecting the natural environment.

We have partnered with fabric mills and garment factories to find alternative, breathable water repellent treatments that are PFC Free without sacrificing performance of our materials.

Together with our suppliers we have selected the best fluorocarbon-free technologies that have proven reliable on our materials.

SOCIAL RESPONSIBILITY [1:1 INITIATIVE]

We are committing 1% of our total global sales in matched donated gear.

At Stormtech, one of our core values is to embrace the outdoors, our planet, and the people we share it with – especially our future generations. The 1:1 Initiative provides vital supplies to community organizations that introduce youth to the life changing experience of outdoor adventure.

Each Stormtech purchase enables our partner organizations to continue inspiring young people to believe in themselves and know that it doesn't matter where they come from — all that matters is where they are going.

ENVIRONMENTAL STEWARDSHIP

Stormtech is committed to reducing the environmental impact of our operations. We encourage our business partners to comply with all applicable environmental laws and regulations in the country of operation and encourage our whole supply chain to reduce the use of natural resources, to re-use where feasible, and to recycle whenever is possible.

PRODUCT DEVELOPMENT

DESIGN EXCELLENCE

When it comes to apparel, Stormtech is devoted to producing functional, fashionable apparel with minimalist styling, from the ground up.

Stormtech's Senior Apparel Designer Jenny Grad and her team are committed to creating top quality garments. "We are very excited about our new and refreshing approach to our style development and are looking forward to continue growing this part of our business," Jenny says.

"When it comes to the design lines, we like to emphasize and balance the natural curves of a women. Softer lines and strategically placed seaming is fundamental."

– **Jenny Grad**
Sr. Product Designer

TECHNOLOGY STORY

H2XTREME

TECHNICAL CLIMATOLOGY

Ultimate weather protection through advanced waterproof/breathable technology—perfected to keep moisture at bay, inside and out.

DWR OUTER SHELL

The PFC-Free DWR (Durable Water Repellent) technology is a polymer coating added to outerwear to provide water-resistant protection. The DWR technology prevents light rain and snow precipitation from saturating the outer fabric surface and prevents fabric from becoming weighed down by excess moisture, leaving the wearer to enjoy comfort and optimized freedom of movement.

H2X DRY
MOISTURE MANAGEMENT

ACTIVE MOISTURE MANAGEMENT

Next-to-skin climate control with moisture management technology to regulate your core.

UVX
SUN PROTECTION

UPF PROTECTION

Stormtech UPF Protection products are designed with engineered fabrics to provide sun protection to the wearer as well as extra comfort and coolness.

FEATHERFREE
THERMAL SHELL

LIGHTWEIGHT ELEMENTAL DEFENSE

Highly efficient and highly compressible synthetic down alternative—maximum warmth in extreme cold.

HD HEAVY DUTY
OUTSHELL

STORMTECH HEAVY DUTY OUT SHELL

It is a heavy-duty, highly-durable, taslon polyester fabric constructed to withstand the most rigorous and extreme applications and industries.

Product Overview

Clear the Fog

GET OUT THERE

Breathe fresh air, and gain a fresh perspective. Enjoy expertly designed technical apparel that keeps you looking great. Even if there's no one else around.

STORMTECH.CA

EXTREME OUTDOOR SERIES

Be inspired - just look outside and take in the endless scenery stretching across the land and beyond the horizon. Chiseled mountains, flowing rivers and a soothing palette of color define the stately beauty of the Coast Mountain range - but our design inspiration doesn't just stop there. We also take our teachings from the rain, the snow and the sun in the creation of our collections - we pay painstaking attention to mother nature's varying moods. So you can get out there and explore with confidence.

SYNTHESIS STORMSHELL

RX-1 | RX-1W

Ultimate wet weather protection and cutting edge style. With its sleek silhouette, the Synthesis Stormshell is a take everywhere piece that features H2XTREME® waterproof/breathable technology, a full coverage hood and Stormtech's most advanced articulation and ergonomic fit to date, allowing for a full range of unrestricted movement.

MISSION TECHNICAL SHELL

XNJ-1 | XNJ-1W

Tell wet weather to take a hike. Nothing should stop you from hearing the crunch of fallen leaves underfoot, so put on a shell that is resolute about providing maximum outdoor protection. The urban styled Mission Technical Shell shuts out the rain and keeps the wind out with its exclusive H2XTREME® waterproof/breathable technology, snap off hood and waterproof zippers. Comfort comes standard with pit zips for core ventilation, while the ergonomic design promotes unrestricted movement.

PATROL SOFTSHELL

XB-3 | XB-3W

Explore with confidence. This highly technical and functional softshell is a proven performer in the outdoors. Engineered by Stormtech's design team for versatility in variable weather for your next adventure. Features include fully sealed seams, waterproof zippers, and dual chest pockets to stow your valuables.

LIGHTNING SHELL

THX-2 | THX-2W

Let it rain. The Lightning Shell is a 2-layer H2X® waterproof/ breathable jacket, featuring a stylish and functional external stormflap to help shut out the wet and cold, attached and adjustable hood, and pit zips to promote core temperature regulation.

THREE-IN-ONE INTERCHANGEABLE SYSTEM JACKETS

The original, since 1983. When heading outdoors you can predict and plan a full day of outdoor activity with certainty, but what you can't predict is what the weather will hold. Enter our 3-in-1 system jackets; your versatile answer to the unpredictable. These system jackets are 3 jackets in 1, pairing a weatherproof outer shell with a removable, ultra-warm insulated inner jacket. This allows you to customize your jacket when the weather is playing the fickle fiddle. Stormtech 3-in-1 system jackets have been developed for a wide range of outdoor environments, for both work and play.

MATRIX SYSTEM JACKET

XB-4 | XB-4W

Redefining the 3-in-1. The Matrix System Jacket changes with the seasons. An H2XTREME® waterproof/breathable outer shell with articulated elbows to allow for a full range of movement and fully sealed seams to ensure the jacket stays watertight. Works in synergy with a lightweight and thermally robust interchangeable thermal shell liner that zips in and out as required.

AVALANCHE SYSTEM JACKET

SSJ-2 | SSJ-2W

Multi-weather functionality. With its soft-touch bonded fabric and high loft insulated liner, the Avalanche System Jacket redefines versatility. Remove or keep the hood, wear as an insulated thermal jacket or a lighter weight H2XTREME® waterproof/breathable outer shell when the temperature allows. The thermally robust, quilted inner jacket works in synergy with the outer shell and can be zipped in and out in an instant.

ATMOSPHERE 3-IN-1 SYSTEM JACKET

SSJ-1 | SSJ-1W

Designed for optimal versatility and function, this two-tone, feature-rich, H2XTREME® 3-in-1 system jacket, with zip-out polyfill liner, provides superior waterproof/breathable protection and warmth. With thoughtfully designed features such as an internal media port, a dropped back and detachable hood for full weather preparation.

VORTEX HD 3-IN-1 SYSTEM PARKA

TPX-3 | TPX-3W

Hardwearing HD outer shell is work ready and designed with safety in mind. This Vortex HD 3-in-1 System Parka has a zip-out polar fleece liner and reflective trim for added visibility in low light. With water resistance coating and a stowable hood, stay dry and warm while working in the elements.

THERMAL OUTERWEAR

Embrace city beats or escape for a trek up the trail with Stormtech's best-in-class Thermal Outerwear Collection. From high-end technical parkas to fashion-forward thermal jackets and iconic "puffy" shells, a coming together of genius design and functionality keeps you ultra-warm and dry. Given a thumbs up by explorers of self and of the world, this thermal outerwear is the epitome of style and comfort.

FAIRBANKS PARKA

PXR-1 | PXR-1W

Nature knows no boundaries. Rethink life's boundaries as you look extreme weather in the eyes with three times as much confidence. The high-end technical Fairbanks Parka provides three-way thermal protection to maximize your core temperature with a combination of thermal shell insulation, sherpa fleece lining, and thermal reflective lining. The H2XTREME® waterproof/breathable technology, fully taped outer shell and full coverage insulated hood, shield you from wet and cold with layers of protection. Be unstoppable.

BLACK ICE THERMAL JACKET

X-1 | X-1W

High style and functionality. Waterproof ultra-lightweight outer shell with fully taped seams, featuring high performance H2XTREME® waterproof/breathable technology and a high-loft thermal fill, sleek contrasting waterproof zippers and a detachable polyfill-lined hood offers added thermal properties for maximum protection against the cold and wet weather.

STAVANGER THERMAL JACKET

AFP-2 | AFP-2W

Magician of jackets. The ergonomically designed Stavanger Thermal Jacket is the ultimate puffer. Not content with merely providing toasty warmth with its full coverage hood and ultralight polyfill baffles, this jacket has more tricks up its sleeve: quickly and easily pack the jacket into its own pocket to magically transform it into a travel pillow. So, cozy up on a cool, crisp day and adventure forth knowing you have it all covered.

GRAVITY THERMAL JACKET

AFP-1 | AFP-1W

Quilted comfort from hem to hood. Ultra-lightweight with a sleek snug fit and heat-trapping polyfill insulation. Elasticized cuffs and attached hood help retain core warmth, while an outer shell keeps you dry.

SOFTSHELL OUTERWEAR

Our Softshell Outerwear Collections are built with unparalleled attention to detail that ensures your absolute warmth and comfort in thick fog or light rain. The tightly woven face fabrics provide a solid barrier that braces against the elements, while the soft-brushed interior nestles gently and warmly against your skin. This brushed interior also promotes a microclimate for superior moisture management and climate control. You may never want to come out of your shell.

EPSILON 2 SOFTSHELL

HR-1 | HR-1W

Join the movement. Get amongst the smells and sounds of the seasons, as you move unencumbered in the durable Epsilon 2 Softshell. The sleek style boasts mechanical stretch and articulation at the shoulder and elbow for unrestricted movement. Ultra-durable, H2XTREME® waterproof/breathable fabric and a bonded grid fleece backing offer superior thermal properties, while wicking moisture away from the skin. This hooded softshell allows you to breathe and move knowing you have chosen the best movement – freedom.

SIDEWINDER SHELL

HGL-1 | HGL-1W

Four-way stretch fabric that moves as you move. This highly breathable, performance stretch woven shell is one of Stormtech's most popular styles. A simple design and classic look that includes a zippered exterior chest pocket and an attached, articulated hood for protection and warmth in cool to moderate weather conditions.

LIGHTWEIGHT RAINSHELLS

Whether it's a gentle patter or a full-on deluge, rain evokes action. Sometimes we dance in it, sometimes we run from it, and sometimes we play in the puddles left behind. Whatever you decide, we have you covered with our extensive technical and urban aesthetic rainwear collection. After all, located in the heart of the rainy coastal mountains of British Columbia, Stormtech does know a thing or two about what to wear in the rain.

SQUALL RAIN JACKET

WRB-1 | WRB-1W

Feather-light high performance outer shell featuring H2XTREME® technology with a special textured TPU backing for soft and dry comfort against the skin. The Neutrino Shell is the latest in the evolution of ultra-lightweight performance technology and is the perfect, packable partner for variable weather conditions.

OZONE HOODED SHELL

TMX-1 | TMX-1W

Urban inspired and outdoor ready. The super lightweight Ozone Hooded Shell features a modern silhouette, mesh panel for ventilation, articulated elbows to allow for a full range of movement, and an attached hood for unexpected rain showers.

PERFORMANCE FLEECE & LAYERING

It's fair to say that warm and fuzzy feelings are an unavoidable side effect of being surrounded by clear lakes and majestic snowcapped peaks. Stormtech has drawn inspiration from those feelings and created tactile equivalents by using only the finest soft, synthetic materials and cotton in the manufacturing of all our fleece and layering styles. This has earned us 'best in fleece' status. Our collection consists of an array of base and mid layers that are lightweight, functional and perfect for a warm layer or light sweater. So layer up and feel the joy.

MISTRAL FLEECE JACKET
TMX-2 | TMX-2W

Cozy and contoured. At home in the coffee shop or the fitness studio. The Mistral Fleece Jacket features lightweight, single face fleece and H2X-DRY fabric that wicks moisture away from the skin, helping regulate optimum body comfort during high exertion activities. Versatile and functional features mean this piece, with its bold contrast design, will become your 'go-to' lightweight jacket.

BASE THERMAL 1/4 ZIP
HTZ-1 | HTZ-1W

Base camp of layering. Streamlined base layer with H2X-DRY® moisture management technology that wicks moisture away from the skin. The Base Thermal 1/4 Zip features a grid back fleece which offers superior thermal properties, while allowing for excellent airflow and breathability.

PERFORMANCE POLOS AND TEES

It's hard to imagine a world before Polos and Tees, especially when the sun comes out to play. As one of the most in-demand and versatile wardrobe items, they are that essential addition you just can't live without. Whether you require high-tech performance with moisture management technology, industrial strength fabrics, or casual day-to-day attire, our on-trend range of Polos and Tees exude quality, style and a keen eye for fashion.

NEUTRINO TECHNICAL POLO
XSP-2 | XSP-2W

Highly technical performance polo featuring laser-cut holes on the collar and mesh side panels for added ventilation. Taped seams help reduce chafing while H2X-DRY® technology wicks moisture away from the skin.

HORIZON POLO
GTP-1 | GTP-1W

Sublimated gradation print design with H2X-DRY® moisture management technology, snag resistant fabric and UPF sun protection. This performance polo offers both style and technicality to provide long lasting comfort and performance.

BAGS AND PACKS

Bags spell adventure. If you're packing a bag, it means you're headed somewhere. Perhaps it's a commute to your first day on the job, or maybe you're headed to the airport to answer the call of adventure. Whatever exciting road lies ahead, you've got this one in the bag thanks to Stormtech. We are committed to designing progressive-looking travel bags that are durable, versatile and fiercely protective of your belongings.

PROTECTIVE FACE MASK COLLECTION

Technical function and outdoor fashion have a new accessory: protective masks. We have spent the last few months designing a mask collection suitable for all-day wear in high output activities. Elevating performance standards, our Design & Development team were challenged to find new technologies, durable, breathable and lightweight fabrics, and to reduce the thermal burden associated with traditional concepts. They met that challenge and now the very best in technical apparel can be paired with the very best in protective face coverings. So whether you're commuting to work, exploring local trails, or targeting new peaks, STORMTECH has a mask that will keep you protected, comfortable, and performing to new levels.

Stay safe. Stay healthy. Stay active.

-------	------------

EMBROIDERY e

High density decorative stitching on fabric that evolved from handwork to today's high-speed, computerized multi-head machines. With state of the art embroidery equipment, thread and digitizing software, embroider artwork can be applied on a wide range of apparel products.

SCREEN PRINTING sp

A printing technique that uses a woven mesh to support an ink-blocking stencil. Nylon inks are used for fabrics with a high nylon content or stretch factor (such as polyester and lycra). Plastisol inks are used on all cotton rich products. It's the ideal decoration for a variety of fabrics and large format applications, at a low cost.

SEAMLESS HEAT TRANSFER ht

Seamless Heat Transfer is a brand new, innovative way of branding a wide range of products with crisp, vibrant, full-colour graphics in a heat transfer application. This state of the art technology provides the ability to print and apply highly detailed logos and graphics while being very cost effective.

CUSTOM DESIGN cd

Stormtech Custom Design develops customized products tailored to meet your specific requests. Whether it's a special colour or fabrication, design modification, or a fully customized product, we have the ability to design, manufacture, and deliver your unique requests.
